

Complaints Handling Procedure

Doc ID: CMP-003	Version: 1.0	Effective: 2026-01-01	Access: INTERNAL
-----------------	--------------	-----------------------	------------------

This document outlines the Complaints Handling Procedure (CMP-003, Version 1.0) for AEON Credit Service (M) Berhad, establishing mandatory operational standards for customer complaint intake, mandatory acknowledgement within 2 business days, final dispute resolution within 14 days, and formal escalation avenues to the Ombudsman for Financial Services (OFS) and Bank Negara Malaysia.

1.0 — Purpose and Policy Statement

AEON Credit Service (M) Berhad ('the Company') is committed to delivering fair, transparent, and prompt customer redress across all consumer financing products, including Credit Cards, Personal Financing-i, Motorcycle Hire Purchase-i, Auto Hire Purchase-i, and Product Financing. This procedure sets forth mandatory operating standards for logging, investigating, and resolving customer grievances in strict accordance with regulatory guidelines.

2.0 — Intake Channels and Registration

Complaints may be formally lodged through designated intake channels including official customer care email, dedicated customer service hotlines, written correspondence, service branches nationwide, or official digital self-service portals. Frontline staff must log every incoming complaint into the Central Customer Care System (CCCS) within four hours of receipt, generating a unique Complaint Reference Number (CRN) for end-to-end audit tracking.

3.0 — Acknowledgement Standard

The assigned Customer Care Officer must issue a formal written acknowledgement to the complainant within two (2) business days of receiving the grievance. The acknowledgement must clearly state the assigned CRN, the receiving officer's contact details, an outline of the investigation process, and the target resolution timeframe.

4.0 — Investigation and Dispute Assessment

Assigned Case Officers shall independently investigate the circumstances surrounding the complaint by reviewing system audit logs, audio recordings, credit underwriting records, and payment gateway histories. The investigation must remain objective and impartial, reconciling operational execution against product terms, finance charges, credit limit assignments, and statutory consumer protection rules.

5.0 — Resolution Timelines and Written Findings

The Company mandates that all complaints must be resolved within fourteen (14) calendar days from initial receipt. The final resolution letter must explain the findings clearly, state the redress or corrective measures taken (such as fee reversals or credit bureau updates), and be communicated to the customer in clear Malaysian banking English or Bahasa Malaysia.

6.0 — Complex Case Extensions

Where a complex investigation involving third-party merchants, payment networks, or external legal verifications cannot be concluded within fourteen (14) days, an interim extension notice must be issued to the customer on or before Day 14. The interim notice must explain the specific reasons for delay and establish a revised conclusive resolution date not exceeding thirty (30) days from initial lodgement.

7.0 — External Dispute Resolution and OFS Escalation

If a customer remains dissatisfied with the final resolution outcome, or if a dispute remains unresolved past the permitted handling window, the Company must formally notify the complainant of their statutory right to escalate the matter to the Ombudsman for Financial Services (OFS) within six (6) months of the final decision. For non-monetary complaints or matters outside OFS jurisdiction, customers must be directed to BNMTELELINK.

8.0 — Record Keeping and Regulatory Reporting

All case files, voice recordings, investigation notes, and final determination notices must be archived in the document management system for a minimum statutory retention period of seven (7) years. The Compliance Department shall compile monthly complaint analytics for submission to the Executive Committee and Bank Negara Malaysia.

Schedule / Reference Table
