-------------------	--------------	-----------------------	----------------

This Product Disclosure Sheet sets out the key features, terms, Shariah concepts, financial obligations, and dispute resolution mechanisms for the Motorcycle Hire Purchase-i facility offered by AEON Credit Service (M) Berhad. Customers are advised to read and understand this document before deciding to obtain the financing facility.

1 — What is this product about?

Motorcycle Hire Purchase-i is an Islamic vehicle hire purchase facility provided by AEON Credit Service (M) Berhad to finance the acquisition of new and pre-owned motorcycles. The facility provides a financing margin of up to 90% of the net vehicle purchase price, with flexible financing tenures ranging between 12 months and 60 months.

2 — What is the Shariah concept applicable?

The facility is structured under the Shariah principle of Al-Ijarah Thumma Al-Bai' (AITAB). The arrangement consists of two sequential contracts: first, Ijarah (leasing), wherein the Company purchases the motorcycle from the authorized merchant and leases it to the customer for an agreed tenure against monthly rental instalments; second, Bai' (sale), where the Company transfers legal ownership of the motorcycle to the customer at the end of the lease tenure upon full settlement of all agreed lease payments, nominal purchase price, or execution of the sale undertaking.

3 — What are the eligibility criteria and key credit assessment guidelines?

The applicant must be a Malaysian citizen or permanent resident aged 18 years and above at the time of application. In accordance with Credit Policy v2 (effective 2026-01-01), approval is subject to credit assessment: the applicant projected Debt Service Ratio (DSR) must not exceed 60% if gross monthly income is below RM 3,000, or 70% if gross monthly income is RM 3,000 or above. Post-facility Net Disposable Income (NDI) must meet a minimum floor of RM 1,500, or RM 2,000 where the applicant supports 3 or more dependants. Credit bureau score checks require a minimum CTOS score of 650 for automated straight-through processing, while any active legal action, bankruptcy, AKPK Debt Management Programme enrolment, or facility currently 2 or more months in arrears will result in an absolute decline.

4 — What are my financial obligations?

The customer is obliged to pay regular monthly instalments consisting of principal and fixed profit components throughout the financing tenure. The profit charge is calculated on a fixed flat rate basis per annum. Payment must be remitted on or before the agreed monthly due date through AEON Credit service centres, automated teller machines, direct debit, or authorized digital collection channels.

5 — What are the fees and charges I have to pay?

Fees payable include standard statutory stamp duty as per the Stamp Act 1949, vehicle ownership endorsement fee charged by the Road Transport Department (JPJ), processing documentation fees, and mandatory comprehensive Takaful contribution for the entire tenure of financing. Takaful coverage must cover accidental damage, theft, and third-party liabilities naming AEON Credit Service (M) Berhad as the first loss payee.

6 — What happens if I fail to fulfil my obligations?

If the customer fails to remit monthly instalments on time, late payment compensation (Ta'widh) may be imposed at a rate not exceeding 1.00% per annum on the overdue instalments, calculated daily until full settlement, or in accordance with Bank Negara Malaysia Shariah Advisory Council guidelines. In the event of persistent default exceeding two consecutive monthly instalments, the Company reserves the statutory right to commence vehicle repossession procedures in strict compliance with the Hire-Purchase Act 1967 and relevant Shariah requirements,

alongside reporting adverse credit payment conduct to registered credit reporting agencies including CTOS and CCRIS.

7 — What are the major risks associated with this facility?

Failure to maintain scheduled instalments will lead to legal action, motorcycle repossession, and adverse records on credit reference databases which will impair future financing eligibility across all financial institutions. In addition, the customer remains liable to settle any outstanding shortfall amount if the net proceeds from the auction or disposal of the repossessed motorcycle are insufficient to satisfy total outstanding liabilities.

8 — What do I need to do if there are changes to my contact details?

It is essential that the customer promptly notifies the Company of any change in residential address, telephone number, employment status, or email address to ensure that all statutory notices, statements of account, and contractual correspondences are received in a timely manner.

9 — Where can I get assistance and lodge a complaint?

If you encounter difficulties in meeting your monthly repayments or wish to lodge a complaint, you may contact AEON Credit Service (M) Berhad Customer Care Centre at +603-2719-9999 or email customer.service@aeoncredit.com.my. The Company will formally acknowledge complaints within 2 business days and endeavour to resolve them within 14 calendar days. If the outcome remains unresolved or unsatisfactory, you may escalate the dispute to the Ombudsman for Financial Services (OFS) or contact BNM LINK at Bank Negara Malaysia.
