

Product Disclosure Sheet: Personal Financing-i

Doc ID: PDS-PF-I	Version: 1.0	Effective: 2026-01-01	Access: PUBLIC
------------------	--------------	-----------------------	----------------

Product Disclosure Sheet (PDS) for AEON Credit Service (M) Berhad's Personal Financing-i (PDS-PF-I), outlining product features, Shariah contract (Tawarruq), profit rates, eligibility, underwriting criteria under Credit Policy v2, fee structures, repayment illustrations, and dispute resolution mechanisms.

1 — What is this product about?

AEON Credit Personal Financing-i is an unsecured Shariah-compliant personal financing facility governed by the Shariah principle of Tawarruq (Commodity Murabahah). It provides financial assistance to individual customers for personal consumption, debt consolidation, or emergency needs. The approved facility amount ranges from RM 3,000 to RM 150,000, with flexible financing tenures spanning from 12 months up to 84 months.

2 — What is the Shariah concept applicable?

This facility is structured under the Shariah concept of Tawarruq, comprising Murabahah and agency (Wakalah) arrangements. Under this arrangement, the customer appoints the Company as an agent to purchase Shariah-compliant commodities at cost price. Subsequently, the Company sells the commodities to the customer at an agreed deferred sale price (cost price plus profit mark-up) to be repaid via monthly instalments. Acting as the customer's sale agent, the Company then sells the commodities to a third-party commodity broker for cash, which is disbursed directly into the customer's designated bank account.

3 — What are the profit rates and key financing terms?

The financing carries a fixed profit rate ranging from 6.88% p.a. to 14.88% p.a. flat, determined by customer risk profiling and credit assessment. Profit is calculated on a flat-rate basis across the agreed tenure of 12 to 84 months. The maximum initial financing limit is capped at 2 times gross monthly income for applicants earning below RM 5,000, and up to 3 times gross monthly income for applicants with gross monthly income of RM 5,000 and above. Approved credit limits are determined strictly via standard credit assessment guidelines and must never be used as an input variable in the automated underwriting model.

4 — What are the eligibility and credit assessment criteria?

Applicants must be Malaysian citizens aged 21 years old up to 60 years old at the end of the financing tenure. Pursuant to Credit Policy v2 effective 1 January 2026, approvals are subject to rigorous capacity and credit assessments: (a) Debt Service Ratio (DSR) ceiling is capped at 60% if gross monthly income is below RM 3,000, and 70% if gross monthly income is RM 3,000 and above, taking into account the binding projected monthly instalment of this facility; (b) Net Disposable Income (NDI) floor requires a minimum post-disbursement buffer of RM 1,500, or RM 2,000 where the applicant supports 3 or more dependants; (c) Credit bureau assessment requires a CTOS score ≥ 700 for prime tier pricing, 650 to 699 for standard tier pricing, while scores < 650 exit automated processing and require Senior Underwriter review; (d) Any active legal action, bankruptcy status, or AKPK flag will lead to an absolute decline; and (e) Any external credit facility currently 2 or more months in arrears or an active AKPK Debt Management Programme (DMP) renders the applicant ineligible for this unsecured facility.

5 — What are the applicable fees and charges?

Applicable charges include: (a) Stamp Duty assessed under the Stamp Act 1949 (typically 0.5% of the total approved financing amount); (b) Brokerage and Commodity Trading Fee of RM 10.00 to RM 30.00 per completed Tawarruq transaction; and (c) Processing Fee of RM 0. Early settlement is permitted without exit penalty, subject to Ibra' (rebate) calculated on unearned profit based on Bank Negara Malaysia guidelines.

6 — What happens if I fail to fulfil my payment obligations?

If you fail to service instalments punctually, Late Payment Charges (Ta'widh) will be imposed at a rate of 1.0% per annum on the overdue instalment amounts, calculated from the due date until full settlement during the financing

tenure. Default may adversely impact your CTOS and CCRIS credit rating, hindering future credit applications across all Malaysian financial institutions. Continued non-payment exceeding 2 consecutive months triggers legal recovery procedures and may lead to facility acceleration.

7 — What do I need to do if there are changes to my contact details?

It is essential that you inform the Company immediately of any change in your residential address, telephone number, or employment details to ensure all correspondences, notices, and payment reminders reach you in a timely manner. You can update your details by calling our Customer Careline or visiting any AEON Credit Service branch nationwide.

8 — Where can I lodge a complaint or seek assistance?

If you have enquiries or wish to lodge a complaint, you may contact AEON Credit Service (M) Berhad Customer Careline. The Company will formally acknowledge complaints within 2 business days and resolve them within 14 calendar days. If the resolution provided is not to your satisfaction, or if your dispute remains unresolved, you may escalate the case to the Ombudsman for Financial Services (OFS) or contact Bank Negara Malaysia via BNMTELELINK.

Schedule / Reference Table

Financing Amount (RM)	Tenure (Months)	Illustrative Flat Profit Rate (p.a.)	Total Profit Payable (RM)	Total Selling Price (RM)	Monthly Instalment (RM)
10,000	24	6.88%	1,376.00	11,376.00	474.00
10,000	48	7.88%	3,152.00	13,152.00	274.00
10,000	84	8.88%	6,216.00	16,216.00	193.05
30,000	24	6.88%	4,128.00	34,128.00	1,422.00
30,000	48	7.88%	9,456.00	39,456.00	822.00
30,000	84	8.88%	18,648.00	48,648.00	579.14
50,000	24	6.88%	6,880.00	56,880.00	2,370.00
50,000	48	7.88%	15,760.00	65,760.00	1,370.00
